Frameworks	ReactJS, NextJS, ExpressJS, Actix Web (Rust), Flutter, Flask, Rocket (Rust), Gin (Go)
Blockchain	Solana, Anchor, Cosmwasm, Cosmos
Tools	Docker, Git, Prometheus, Grafana, Loki, Redis, Kafka, Jest, PostgreSQL, MySQL, MongoDB
DevOps	Nginx, AWS EC2, AWS ECS, AWS EKS, AWS ECR, AWS Lambda, AWS S3, AWS Elastic Cache, AWS Cloud watch, Dynamo DB

Projects

Flux Mail

 Github  Website  Crates.io

A fully self-deployable and open source Temp Mail SMTP Service written in Rust and NextJS

- Users can create and receive mails on through custom SMTP Service which are stored temporarily for 7 days.

Vanish

 Github  Crates.io

Generates locally trusted X.509 SSL Certificates from scratch

- Follows the X.509 Standards as mentioned in **RFC 3280** (April 2002) to match the PKI Standards.
- Published on Crates.io with **3200+ downloads**.

Vault

 Github  Crates.io

VERSION CONTROL SYSTEM SIMILAR TO GIT, IMPLEMENTED IN RUST

- Supports majority of git commands (e.g., Commit, Init, Revert). Published as a binary on Crates.io with **2000+ downloads**.

React Maps

 Github  NPMJS

REACT COMPONENTS FOR INTERACTIVE MAPS

- Provides ready-made components of **SVG maps** for countries and continents. Over **185,000+ package downloads**.

MLVM

 Github  Crates.io

Multi language version manager. NVM alternative built in Rust

- Uses **file system symlinks** to securely transfer version. Over **2000+ package downloads**.

Proximity

 Github

TERMINAL CHAT APPLICATION USING WEBSOCKET PROTOCOL IN C

- Uses **IPV4 address** and **WS Protocol** to transmit messages inside the terminal.

Go-Json-Db

 Github

JSON DATABASE USING JSON FILES AND FOLDER STRUCTURE

- Similar approach to MongoDB (using JSON instead of BSON). Supports CRUD operations (GET, POST, UPDATE, DELETE).
